

model/dofhandler.hpp

```
graph TD; A[model/dofhandler.hpp] --> B[vector]; A --> C[string];
```

A diagram illustrating dependencies. At the top is a gray rectangular box with a black border containing the text 'model/dofhandler.hpp'. Two blue arrows originate from the bottom center of this box. The left arrow points down and to the left to a white rectangular box with a gray border containing the text 'vector'. The right arrow points down and to the right to another white rectangular box with a gray border containing the text 'string'.
